

Secure Patient Portal Enrollment Form

What is a patient portal?

A patient portal is a secure website that gives you access to your health records online. You can visit the patient portal using your computer or any device that can connect to the internet.

The portal website can be found by going to webpage, www.maltamed.org. Click on the "Patient Resources" button on the home page menu bar. Then click on "Pateint Portal" to log in.

Why should I use a secure patient portal?

- Using the portal to view your medical record information can reduce the need for phone calls, mail and faxes to get your health records from the hospital.
- You can be reminded of your care instructions between visits to your doctors.
- The portal helps you take a more active role in your healthcare.

What information is available on the patient portal?

You can view of your health information from your Saratoga Hospital visit. This includes:

- Lists of your medications
- Provider Reports
- Radiology Reports
- Allergy information
- Lab results
- Discharge Instructions

**Information from other hospitals or doctors offices in the area may also be available. The patient portal connects to a Regional Health Information Exchange service called HIXNY. This allows you to access data from multiple providers where you receive care.

If you would like to be signed up for the Patient Portal, please fill out the following information:	
Name:	Date of Birth:
Mailing Address:
